\$1000 Reward for Proof of a Better Liniment than Merchant's Gargling Oil-

# ANNOUNCEMENT FOR 1887.

THE publishers of The Buffalo City Directory believe that the book for 1887 will be found in all particulars reliable, and commensurate with the era of great growth and prosperity which the city has reached. It indicates upon the most reasonable basis of computation the substantial increase of population which a single year has brought.

The Directory contains sixty-four more pages than the issue of last year. These additional pages contain 6,000 names, making the total number of names in the Directory seventy-eight thousand (78,000), as against seventy-four thousand and thirty-two (74,032) in last year's issue.

It has long been the custom of the publishers to estimate the population by multiplying the aggregate of names by 3¼, although most compilers of Directories consider 3½ a fair and reasonable rate. By the use of this 3¼ as the multiplier, the present total population is made two hundred and fifty-three thousand five hundred (253,500), as against two hundred and forty thousand six hundred and four (240,604) last year. This is close upon the general estimate which has been for some time maintained by those who, in the absence of any census other than the compilation of the Directory affords, have closely studied the city's growth, and a multitude of signs indicate that it is near to the actual figures. Buffalo, a small village when the first Directory was printed, is now a great city, and its every interest will no doubt in the near future be enlarged.

With the remarkable prosperity of the city, at present everywhere recognized, the publishers believe that the Direc-

Merchant's Gargling Oll, the Standard Liniment, is good for Man and Beast.

tory should be an exemplar of its importance and the extent of its interests, and with this end in view they have spared no pains for its perfection. They feel satisfied that it will be found nearly as complete as it is possible to make such a work.

A new feature has been introduced in the arrangement of names, which, it is thought, will be acceptable to the patrons of the Directory, as increasing its convenience for quick reference. Otherwise the general plan is much as formerly.

The publishers feel that of the Directory of 1887 they can with all truth say that they have presented to the citizens of Buffalo one of the best volumes ever issued in any city, both as regards completeness of preparation and mechanical excellence. They believe that it will be accepted as worthy of the Queen City of the Lakes in this the time of her greatest prominence thus far in her history, a city of over a quarter of a million of people.

The number on one corner has been given, so that a person wishing to find, say, 400 Main Street, on consulting the Street Directory, finds that the right-hand corner of Main and Mohawk is No. 487, consequently, the place he seeks is only a few doors above.
